# Five numbers explain the plan

Use these definitions consistently with every client.

1

## Daily leads

Maximum included buyer leads the vendor can unlock in one day.

2

## Weekly leads

Maximum included unlocks available in the week; daily usage also counts toward this total.

3

## Yearly leads

Plan-level annual capacity shown for commercial planning and quota reporting.

4

## States

Maximum states the vendor can choose for product visibility and relevant search matching.

5

## Cities

Maximum selected cities across those states where the vendor products can appear for location searches.

# One monthly trial. Shared once.

## STARTUP + CERTIFIED + BOOSTER

A vendor may activate one 30-day monthly subscription from this group in their lifetime. It is one shared opportunity, not one month on every plan.

### Sales rule

- After any monthly activation, every future purchase, upgrade, or switch uses yearly billing.
- Trial plan does not consume the one-time monthly opportunity.
- A coupon-covered monthly activation still counts as the monthly trial.
- Failed or cancelled checkout does not count; an activated monthly subscription does.
- Silver, Gold, and Diamond remain yearly, sales-assisted plans.

### EXAMPLE

If a vendor first buys Startup monthly, they cannot later buy Certified monthly. Their next Certified, Booster, or Startup purchase must be yearly.

## SALES CHECK

Ask three questions first: Where do you sell? How many buyer leads can you handle? Do you need only marketplace visibility, or a shareable premium portfolio?
